

CHLOé CRAMER (CH/BE)

chloe, ana-lisa, analisateresa

Born in Geneva, living in Brussels. She shares her time between assisting fiction film directors, performing for *N3krozof * and directing video for the scenography of various stage performances (dance and theater)

CHRISTIAAN CRUZ (USA)

chris, fe2cruz

A Southern California based photographer/DBA analyst by trade. Interest in human interaction, ownership, and appropriate design prompted networked pieces; some of which have used water, Jovian waves, and motorbikes.

CYM (NL/A/SLO)

cymnet, cym

traveling through Europe with laptop and digital camera, explores the relations between virtual reality and real life. Her redevelopment of an old small village farm into an art center in south-east Austria inspires her work. These natural surroundings and the long history of the building have been incorporated into her Aether9 contributions.

DHANYA PILO (INDIA)

dhanyapilo

works as a film maker, designer and a visual artist from her studio in Mumbai, the teeming hub of India's artistic and film community.

FRAUKE FRECH (DE)

frauake, sokimee

In her performance based works - mainly dance, video, and installation - she focuses on the discrepancy of analog and digital world, of individual and society. Since 2008 she is performing for aether9.

PAULA VéLEZ (COLOMBIA)

paulavelezbravo, paula, paulavelez, manizales

Media and video artist, vj, super8 activist, involved in musical and cultural project management. Member of Aether9 since 2007. Interest in home-made technology span into documentary work with communities to solve social and environmental problems.

AUDREY SAMSON (CAN/NL)

ideacritik, idea

Interests focus on ways to interface community storytelling and in creating communication possibilities in unlikely scenarios. M.A. Media Design (2007) from the Piet Zwart Institute, Rotterdam, NL. Teacher at Gerrit Rietveld Academie (NL), member of genderchangers; a collective of women which promote the exchange of technical skills between women, member of Aether9; collective exploring the dramaturgical possibilities of remote realtime storytelling.

JUDY NYLON (USA)

paljudy, Nylon

Originally from Cambridge, Massachusetts, influenced by the museum collections of old Boston plus the twentieth century tech inventions of Polaroid, Harvard and M.I.T. Trained in the philosophy of sedition as per local Irish tradition, then launched back at England, Judy was part of London's first wave of British Punk. The resonating influence of her thinking has been critically acknowledged in the analysis of other collaborations with fellow artists, principally John Cale and Eno. Judy joined in the aether9 project on July 07 drawn to the development of narrative co-authorship, many to many broadcast, and new performative techniques for emerging art disciplines.

THE LEAGUE OF IMAGINARY SCIENTISTS (USA)

Remote Control Monkey,

Lucy H G is a media artist, a filmmaker, and the interdisciplinary research coordinator for the League of Imaginary Scientists. Her visual experiments, creative diagrams, and interactions fit in between realms, where microbiology mingles with geopolitics

and mechanical engineering animates human biology.

MANUEL SCHMALSTIEG (CH) *aether9, manu, 1.1,*

Born in Hinterkappelen in 1976, Manuel operates on the borderline between video, performance and software art. He graduated from HEAD Geneva in 2003, where he worked as teaching assistant. He is the co-founder of N3krozoff Ltd, a technological think tank producing performances and installations. In 2008 he launches Greyscale Press, expanding his experimental practice into the field of printed matter.

MARI KESKI-KORSU (FIN) *mkk*

(b. 1976) is an artist, initiator and organizer. She is interested in storytelling and moments that befall. She explores i.e. nations as imaginary communities, tourism, presented identities and especially causalities of eco-social and structural changes in people's everyday life. She works with mixed and locative media applying process oriented methods. She is/has been concentrated on i.e. net and video art, streaming happenings and live visual mixing. Her works has been shown around Finland and in several countries. She has a MA in new media (digital authoring) from University of Arts and Design Helsinki and BA in visual arts from Polytech of Western Lapland.

LAURE DE SELYS (BE/FR) *saylor, laure.dit*

Laure de Selsys is a Belgian and French artist, born in Geneva in 1986. She studied at Universität der Kunst (Berlin) with Katharina Sieverding and at Académie Libanaise des Beaux Arts (Beirut) in the new media department. In 2010, she received a Master in Fine Arts from the Ecole Nationale des Arts Visuels de la Cambre (Brussels). Laure currently lives and works between Brussels and Beirut.

BORIS KISH (CH/BE) *bk, bk2, boris, thom_edison*

Boris Kish was born in 1978 in the Swiss Jura mountains. After studying philosophy and comparative literature, he cofounded n3krozoff ltd., an art group producing videos, installations, street and stage performances. He is also involved in filmmaking.

ALEJO DUQUE (COLOMBIA/CH) *alejo, aleij*

Graduated from the school of fine arts of Medellin, Alejo deeply involved in networks such as dorkbot-medellin [k.0_lab] and labSurLab. His main interests deal with satellites, radio waves, streaming media, and their crossing point with open source hardware and software. He is a researcher at the Locus Sonus Laboratory in the south of France, and pursues a PhD at the European Graduate School.

VINNY BHAGAT (INDIA/AUSTRIA)

Vinny Bhagat aka Shivnakaun is a sound artist and musician researching in the field of computational electro acoustic music and audio-visual art and technology. His work explores digital sound generative and synthesis methods , physical interaction and models for performance and composition. He is deeply interested in spontaneous art / music performances, distributed online performances and the connection between sound and moving image in a live performance context. Born in New Delhi - India, he studied Music Technology and Electronic Music at The Elder Conservatorium Of Music.

NATHALIE FOUGERAS (FR/SWEDEN)

fougeras nathalie, nathalie

Studied contemporary art and obtained a post-diploma ARI (interactive research) at ENSAD in Paris. She began to explore new media with interactive cinema, exhibited her works in several festivals like Jouable Genève-Kyoto-Paris. From 2007 she performs with two groups of artists

[21:33:0] **ideacritik** good
[21:34:0] **cym** i follow
[21:41:7] **ideacritik** we will start momentarily
[21:41:11] ... START TITLE 1
[21:42:00] ... start act 1
[21:42:05] yoann trolu actually for me it just stops... but it happens
should come back no?
[21:42:14] **ideacritik** can
[21:42:19] ... START ACT 1
[21:43:23] yoann trolu it works
[21:44:24] **paula véliz** not for me
[21:44:33] **ideacritik** WE START AGAIN IN 1 MIN SORRY
[21:44:44] **paula véliz** now i see old images from this morning
[21:44:53] **ideacritik** sorry i can't help anymore...
[21:45:05] **cym** ok
[21:45:07] rougeras mathilde j'ai mon image je n'arrive pas à la télé pour l'afficher sur

[21:48:16] **alejood** serious technical problem
[21:48:36] **paula véliz** i see
[21:48:46] **fe2cruz** so for now we are paused?
[21:48:56] **thom_edison** it seems so
[21:48:57] **ideacritik** yes
[21:48:59] **alejood** no way to receive the 9 inputs as planned...
[21:49:05] **paula véliz** i can not send mi title and i see an old image from morning
[21:49:06] **ion** i've got no idea... what should we do?
[21:49:25] **alejood** even in the html page, it looks like some of you can't even get the pigs on the server
[21:49:33] ... jpgs
[21:49:56] **fe2cruz** my tip shows i'm logged in but it also says files help
directories are not available
[21:50:01] **cym** take a short break, drink something and start to perform our play, some time tonight, don't worry
[21:50:19] **alejood** how many of you are blocked?
[21:50:20] **thom_edison** or this afternoon for some
[21:50:23] **cym** but can 3 people connect to the same server?
[21:50:27] **alejood** we could get you another

The html works good so far. You N3krosofties are FAST! The console window doesn't pop up to the correct size though; usually too small. Is there anything else you need help with? Any specific feedback, beta testing calls/submissions or dirty work? Please let me know.

>The html works good so far. You N3krosofties are FAST! >The console window doesn't pop up to the correct >size though; usually too small.

depends probably how your toolbars look like. anyway, the intended setup is double screen: the video frames in full screen, projected. the control window on a control monitor. so the resize is not really needed, just practical for testing on 1 small screen.

>Is there anything else you need help with? >Any specific feedback, beta testing >calls/submissions or dirty work?

- FEEDBACK: think of what else should/could be implemented in this "html-patch". the principle for now is: one main frame - <http://www.1904.cc/~aether/mainframe.html> which is divided in a number of subframes (for now six) for each location, there are different versions of subframes with different refresh speed (for now three) e.g. http://www.1904.cc/~aether/frame_brussels_m.html (m: medium speed, 1sec refresh) I attach the zipped html files so you can test in your computer...

34

it seems the list is working...

35

html seems to work good

one function that needs to be implemented would be to change the frame color of one video in order to highlight it - just a different html page, or could this be done in a smart way, like a javascript link that changes style settings of target frame on mouseclick?

another function i would like to test is a "hi-speed" mode: a html page where the jpgs would be placed in different layers, only one of them visible at a time, and where the page would cycle through them at very high speed (its quite easy to do using dreamweavers timeline function). there would be no refresh in this mode since refresh needs more time.

- BETA TESTING: yes, please test this HTML refresh mode by uploading some pictures and seeing if they refresh instantly as they should. using for the moment the following directories: <http://artslashmedia.net/~aether/z/0z.jpg> (select:Sydney) <http://artslashmedia.net/~aether/g/1g.jpg> (select:Brussels) <http://artslashmedia.net/~aether/e/2e.jpg> (select:Geneva)

Also, we should test the different existing webcam-2-ftp softwares. Window users should give a try to these open-source softs: <http://lundie.ca/fwink/> <http://www.webcam2000.info/>

tell us if they work, and how the .pngs or .jpgs are going to be named - this will allow me to include the good filepath into the HTML page.

- CALLS/SUBMISSIONS yes, you are all very welcome to look for opportunities to present this project elsewhere, write submissions, fill out forms etc. if someone of you is volunteering for this job, i will be glad to transmit all the text material we have. The Virginia Beach proposal looks very interesting, the detailed specifications are here: http://www.vbgov.com/file_source/dept/cvd/Documents/OFCA-7-0002\%20Complete\%20RFP\%20Package.pdf Deadline for application is: May 18.

looking forward, manuel ----- next part -----

control interface update

1.1 [*] 1904.cc 1.1 [*] 1904.cc

08.05.2007

hi all,

a new sexy html controller is online. check it out here: http://www.1904.cc/~aether/control_panel2.html

it should be quite intuitive, the numbered arrows will make the images refresh at different speed (1=slow, 3=fast). most of the frames are still void, waiting for your images to be uploaded.

to test realtime upload you can use the lastest version of the max patch (v.101), which you can find here: http://1904.cc/~aether/upload_101.pat.zip

or you can use the webcam2ftp software of your choice pointing to the following servers (from left to right and from top to bottom):

<http://1904.cc/~aether/k/> (images named 0k.jpg - 9k.jpg) <http://1904.cc/~aether/l/> (images named 0l.jpg - 9l.jpg) <http://1904.cc/~aether/m/> (images named 0m.jpg - 9m.jpg)

<http://10111.org/~aether/0/> (images named 0x.jpg - 9x.jpg) <http://10111.org/~aether/1/> (images named 0x.jpg - 9x.jpg) <http://10111.org/~aether/x/> (images named 0x.jpg - 9x.jpg)

if you use a webcam software that has a non-customisable naming scheme, tell me how the images are named and we will make a specific frame for this. btw we are still awaiting user reports about this two windows webcam softs: <http://lundie.ca/fwink/> <http://www.webcam2000.info/>

we could fix an appointment for this evening or some other day to do a sort of jam session...

ps: for all those who subscribed during the last 24 hours, check the list archives for the posts you missed : <http://lists.1904.cc/pipermail/aether/>

best, manuel

Re : sending testing

::audrey:: ideacritik

09.05.2007

i am receiving. images from the ocean(?) the refresh every 3seconds or so, around 4-5 different images i think.

39

good test so

Paula Vélez Bravo ciruela

09.05.2007

audrey: cool. alors, la question est ... je suis en train d'envoyer normalement autour de 33 images differents. fluides d'une femme avec un bonnet blanc sur la figure dans la mer...

il faut encore ameliorer le systeme. l'ideal est d'avoir des images fluides déjà. mais c'est très interesant quand même.

salut.

PAula

40

fluxus

Paula Vélez Bravo ciruela

10.05.2007

it works beter at speed 2. anyway there are only, maybe, 5 frames... i don't know, maybe 9... and i was trying to send 33 frames. to put it more fluide. not so interrupted. because we can not talk about movement or video. it is diaphorama. then we have to concive something to play the material this way. unfortunaly we can not play with the "persistance retinnienne" in any way if things work like this.

paula

41

fluxus / live session proposal

1.1 [*] 1904.cc 1.1 [*] 1904.cc

10.05.2007

hi, thanks for the comments,

indeed we could implement a version with a longer loop, like 33 frames. the reason of having only 9 images is that there will be a quicker "live" refresh. with

33 images, you will cycle a lot through the same images before you see anything new. but we have to test it. also, for the persistance retinienne, i will try to build this hi-speed htmlpage. but it seems also clear that at higher speeds, even the javascript-code isn't able to refresh the images correctly... still a trick has to be found

proposal for a jam session: date: this friday, title: "electronic cafe international" concept: broadcast from a café/ public location with internet access, using possibly a mobile computing device (of course exceptions are possible for locations where showing up publicly with a laptop would endanger your security..) please send a mail to tell if you will participate, then i'll attribute the frames.

what's the best global performance time? i propose this: 10 PM in europe = 1 PM in california = 3 PM in colombia = 6 AM in australia (poor australia.. one hour later would be possible too..)

and btw a new patch is here: http://1904.cc/kode/upload_103.pat.zip it works at a smaller size (the actual size at which the images are displayed on the web interface) and there is a control of the speed of the video (can be useful to slow it down, to match the upload speed...)

best, manuel

42

Re : fluxus / live session proposal

::audrey:: ideacritik

10.05.2007

ok. bypass the refresh and the re-direct. attached code to tell browser to get image every x mmseconds. in the code here: /* the magic call that tells the browser (window) to call the changeimage function every 1000ms (1 sec) */ window.setInterval(changeimage, 1000); the url of the photos on the server change for each square, these have to be changed in the code also. for now i have: "http://www.1904.cc/~aether/frame_k/0k.jpg" (0-9)

it has to be tested to see how many images the array can take, the buffer size, etc. if you give me the correct url for the photos i can do this... in any case, for now attached code (html + javascript only), comments are very explicative, curtosy of a mate...

audrey

43

question for preperation for... tomorrow 11/05/2007 GMT/UTC+2 o'clock

oheun lee mementoeele

10.05.2007

Hi, this is ion - oheun lee - around geneva.

Thx a lot for all the hard work of aether group. I've been withdrawn for some time but I'd love to participate.

Would you kindly explain/suggest what sort of images / objects / etc to prepare in advance, beside "firm" internet connection & laptop with webcam?

Best regard,

oh eun

44

aether news

1.1 [*] 1904.cc 1.1 [*] 1904.cc

16.05.2007

hi all,

busy week, in belgrade for a few days. but here are some thoughts, + some extracts of our recent chat chatter.

a) technical considerations

some explanations about the HTML interface: open http://www.1904.cc/~aether/control_panel.html click on "open mainframe" try the different buttons:

mode 1,2,3 are cycling 10 images (1: refresh every 4 seconds, 2: every second, 3: 5 frames per second)

in mode "33", 33 images are loaded and cycled at high speed (actually 8 images per second). this speed couldn't be obtained if the page was refreshing each image everytime it's read. therefore, the images are refreshed at a much slower speed, 1 img per second. so if the performer is transmitting, the loop will be changing very slowly over time.

[23:52] ideacritik: 33 is wild... but i get all the same images after a while. [23:52] fe2cruz: it just takes a few seconds for the browser to catch up

in mode 1,2,3, each image is refreshed at the moment it is played. so this is closer to "realtime", but it also limits the speed at which the images can cycle.

b) general speed considerations:

[23:54] ideacritik: i think the speed change is a bit 'gadjetty' myself (though the 33 is certainly hilarious!) [23:54] dspstv: 33 is far to much for what is being uploaded.. not enuf images to make a sentence [23:54] dspstv: it loops to fast [23:54] dspstv: imo [23:55] ideacritik: 2 is ok. [0:25] cym: the problem with speed 33 is that you must first have 33 images :-) [0:25] cym: 33 images that sort of go together

c) GRID FORMAT: 6 or 9 frames

[0:27] fe2cruz: are we stuck with 6 for now? or can we jump back to 9 on the next jam test? [0:28] ideacritik: it's just a question of adjusting the html page. [0:28] ideacritik: not a big deal. [0:28] cym: if there are 9 people that take part it should work? [0:28] ideacritik: the 9 square grid was aesthetically pleasing. [0:29] cym: i liked the 9 grid very much

Comment: 6 frames was really for testing only, with a one-screen computer it's much easier like that, when you need to share the screen between, the HTML frames, the chat, the upload software... 9-frame setting should stay imo the standard for the actual performance.

d) the noble art of patching:

[0:17] fe2cruz: does anyone know how to write this patch for PD? [0:18] boris_: not me. [0:18] cym: i would like to have a look at it [0:19] fe2cruz: can someone on MAX post screen captures of the patch? would that help at all?

no time for that this week, but more explanations about the inner workings of the patch will follow. also, i just discovered through the max list (thanks to a guy called vade who did an interesting webcam project: <http://abstrakt.vade.info/?p=80>) some techniques that could improve the receiving part of the patch significantly and eventually allow it to download the images fast and without crashing...

e) concept + content

[0:23] cym: i would be very interested to try to create a play, a story for those slow refreshing cameras [0:23] dspstv: exactly [0:23] cym: i actually like the idea that there is a new image only every second or even slower [0:23] dspstv: agree [0:23] fe2cruz: so is

33 just too much? too gittery should we keep it simple and stick with 1 & 2 speeds? [0:24] cym: with 9 cams in a grid it should be possible to create a nice effect, even when the changes are slow [0:24] paulav: maybe [0:25] paulav: il like the possibility of speeds, but if it doesnt work very good?

[0:51] boris_: yes, images are important and as cym was saying it would be good to work on some good script that would be playable by 6 (or better: 9) remoters and image per image... maybe packets of images , not necessarily in oreder 1 to 33 but also a reset all function would be very usefull

Comment: yes, we need to develop some narrative outline. Concept proposal: GHOST STORY (Ghost Stories from Medellin, from the Californian desert, from the Austrian woods, from the Swiss heights..... we would also really need some Japanese or Korean ghost involved .. think Kairo). Also with our 9-frame split-screen setup, maybe some inspiration could come from such split-narration epics as the Canterbury Tales, the Manuscript of Saragossa....

f) some more possible applications: again very short term, if someone of you would have time and motivation to put together material for an application, would be great.

best, manuel

45

remote fairytales - performance invitation

bk bk

06.06.2007

Dear aethernauts

the next performance of the AETHER9 group ⁴⁵ will be on Thursday 14th of june, online and in brussels at 7 PM in europe = 10 AM california = noon in colombia in an audience packed gallery in the center of Brussels (n3krozoft Ltd will occupy this space for 3 days (see the attached flyer). the performance and the exhibit is called "remote fairytales, contes lontains, fabel op afstand" (last expression is flemish - brussels is bilingual french/flemish. flemish is very very close to dutch).

the IDEA for this performance:

⁷¹ ⁴⁶ 1) on location in brussels, next to the screen, there will be 2 persons on stage: - Deirdre Foster (she is a storyteller and actress from Geneva) - she will tell her version on the classical tale (from the Grimm brothers) "La jeune fille sans mains" (The girl without hands -> http://en.wikipedia.org/wiki/The_Girl_Without_Hands). - Me, BORIS , i will be conferencing the audience about the reunion of an important group of patchers (i'm almost over writing this conference-like text extrapolating from my aether9 experience!) we will intermingle our texts and form a strange dialogue. our idea is that Deirdre & I will be quite confused about what is going on: i will begin my conference by addressing myself to the audience in a similar way and setting (chair, table, lamp) than academic conferences are usually given, with the intention of informing the audience. Deirdre, dressed in a ... fancy way, will then "interrupt me" and start telling her tale, with the intention of enchanting her audience. I will react by answering to her, in my conference mode, but with the intention of understanding what Deirdre is doing here. Deirdre will continue her tale, with the intention of unveiling the question: what am i doing in a digital-media performance? i thought i was in a storyteller convention! etc. and our dialogue will go on according to what happens between us two, the audience and aether9 screens, but we will always stick more or less to the stories we wrote.

2) remote aether9 part: in parallel to the stage action, aether9 remote action will flow on the screen (maybe 2 screens). we didn't develop any script yet. but we want to. the script will integrate formal and narrative elements related to the stage action. sometimes the stage action will be on standby for the screen action to take all the attention. in these moments, formal elements of aether9 will prevail. when the stage action will be running, the narrative elements of aether9 will prevail, providing a visual tale. i guess that there will be an irc channel for aether9 with somebody in brussels giving cues for actions. our texts are in french and should be translated to some extent in english for everybody to grasp the stories... well for Deirdre's tale, the basis is on the net and for mine i'll address this later today. we wish that all remote performers have a common "neutral" set , for instance something simple like : a table with a chair, a neutral wall, a picture on the wall, a book and paper + pen or typemachine on the table. this in order to avoid total randomness of the visual aspect and confusion for the viewers (online especially), in order to have some unity. not all performers would be performing at the same time, and it would be good to have a common neutral state in a way.

3) sound - there will be some sound environment in the brussel performance. somebody will be in charge of the sound diffusion. we are not thinking of streaming the sound for the moment. - we

would like to invite you to upload some sound ⁷³⁵
files on aether at artsplashmedia. ftp server
⁴⁵
in the >web >"sounds_remote_fairytales" folder - ⁴⁶
please view D. Lynch "rabbit" project for interesting
sound treatment (in our view...) -> here are 2
videos: <http://www.bzzp.biz/temp/> (1st episode: full
first episode, 10min fragment: 2 min extract) - you
could also record yourselves saying short sentences
(cf. lynch again).

4) rehearsals - on the 13th of june, one day before
the performance, we should do a videocheck to see
how everything is running in the gallery (at the same
time scheduled for the next day's performance.) - this
friday (8th of june), we would like to do a jam session.
this session will address technical problems (the
aether9 system was working well on the "electronic
café international" session of the 10th of may. since
manuel has been working more on the patch and we
need to test ⁷⁰³
⁴⁷ the latest versions. we will also
write some script with formal elements to test how
it goes. for instance: - the table setting described
before - make a cross between the 9 screens - 2 persons
making phone calls at the same time etc.

so, who will participate in this landmark performance? - to my knowledge, the following aethernauts said that in principle they are ready to take part:
Nathalie from paris, Audrey from holland, PAULA
from medellin, CYM from walkendorf, Chris
from yorba linda - california. i guess that a group
from geneva will do a part too. - Dr. Gomez & the
league? - Rhys from australia? (i heard that he would
use puppets - that would be good - performance time
in au. would be early early in the morning.) - Jo-
han from berlin? - Milena from the brazil group? -
LAURE form the Kingdom of belgium? ⁷¹⁴
⁴⁷
⁷²⁹
⁴⁶

- so we need to know asap: who will be there for the
jam session this friday who wishes to take part in the
"remote fairytales" performance on the 14th of june
(and, if possible, the rehearsal on the 13th of june).

all ideas, suggestion, disagreements etc. welcome and
awaited!!! i love this team! looking forward, Boris

46

tommorow's jam session - details

bk bk

07.06.2007

hello!

tommorow's (8.06.2007) jam session is at 9 PM in europe
Noon in califonia 10 AM in colombia 11 PM in moscow

new working patches!!! new 9 frame viewer html-page!!!

-

a couple exercices for us:

⁴⁶ -let's try to upload monochromatic images only at times (whether with colored light if you have or filters to put in front of the camera or any other way we can ⁶⁹⁴ find) please prepare to upload images using red , blue and yellow. + darkness (not total)

- anything that has to do with the "Girl without hands" tale is welcome.

- if your camera films a setting with a wall (and some picture on it), a table, a chair and somebody (you?) sitting behind the table, perfect! (would be nice to try this all at the same time).

⁴⁶ - server list. 08.06.2007

1 | 2 | 3 4 | 5 | 6 7 | 8 | 9

Frame 1 - <http://1904.cc/~aether/1> Frame 2 - <http://1904.cc/~aether/2/> Frame 3 - <http://10111.org/~aether/0/>

Frame 4 - <http://10111.org/~aether/1/> Frame 5 - <http://artsplashmedia.net/~aether/5/> Frame 6 - <http://aether.front.ru/6/>

Frame 7 - <http://aether.front.ru/7/> Frame 8 - <http://aether.smtp.ru/> { \cap {cym} } \margin{1.5mm}{\kasml}{\vbox{8pt}{\hbox{45}{\vskip{-5pt}\hbox{47}}}} / Frame 9 - <http://aether.smtp.ru/9/>

⁴⁶ for ftp uploaders: username and password on each server are the same as usual. In each case the jpgs are now named 0x.jpg to 9x.jpg (except for cym, who uses arbitrarily frame 8. your jpg is named pw.jpg)

the html interface will be available tomorrow, linked from 1904.cc/aether

participants should announce on the list which frame they want to use.

for maxers: use the latest patch: http://1904.cc/kode/upload_107.zip (22 k)

or, if the new javaobjects aren't working, use this simplified version (without visual feedback; you'll

visualise through the html interface) - http://1904.cc/kode/upload_109.zip (18 k)

-
boris

ps: i will gladly use frame no. 7!

47

last news and performance preparation

bk bk

09.06.2007

hello aethernauts,

we jammed yesterday with laure_brxell1, paula_medellin, manu_geneva, boris_brussel2 and amirali_teheran (chat &images) + christiaan_california, CYM _walkendorf, ideakritik_rotterdam and the league_california (chat only) no script was established so it began slowly in a quite random jam, then ideakritik brilliantly gave cues according to elements of the "girl without hands" tale. it lasted 3 hours or so.

-
technical conclusions: - the viewing 9frame html page works great (i attached some screenshots, some slots are black because we weren't 9) - for maxers: the patch upload _109 works perfectly - for ftp uploaders: it works well also this means that the transmission system for next thursday's performance is fully functional!

-
practical conclusions:

- we all agreed that it is extremely helpfull to be 2 persons for the performance, for example: 1 person in charge of following the irc chat for the cues, for the computer manipulations and the camera manipulations 1 person in charge of the image (as actor, puppetist, drawer etc)

- we need a fine tuned script - this script should be finished on wednesday at the latest. (see my propositions below) - each performer needs a clear method. everybody develops one naturally, but it's better to

find it before the performance than during the performance... will you use a fix or moving camera? etc etc. we need law&order: more the formal aspects are defined, the better it "feels" (knowing that anyway it will be quite hazzardeous - i like this struggle). it's possible at any time now to upload images and visualise it on ><http://1904.cc/aether/> >new  interface!!!

- perform simple & small things we may think that what we are uploading is not "rich" or interesting enough, but then we forget that there are 8 other images!

- react quickly & act slowly it's difficult to be all alert & super fast to react to cues and in the same way remember not to rush the action

- obviously prepare a maximum of stuff before the beginning, in this way you can concentrate on less things during the performance.

maxers: - use the 109 for upload and the html 9frame page to view (not the more complex upload_107 patch, which may crash) - use the start/stop button often - do not constantly upload images. press the stop button to rearrange the setting and prepare for next actions. pressing once "start" then immediately press "stop" will upload just one image. this is great to create controlled animations (although it's hard to control the order of the images, but it's very fun nevertheless).

-
proposals for the basis of the script: - the script form 54 in grid that we used for the first AETHER9 performance was great i think.

- it is now certain that we will use the "Girl Without Hands" tale. Deirdre will tell it during the performance in brussels (we don't know exactly "how")

- think it would be efficient and elegant to make a clear distinction between when we upload "formal" elements (like "film an empty desk before an empty chair") and "narrative" elements like ("The devil sends a messenger to kill the queen and daughter!")

i guess some of us prefer to do a performance with emphasis on formal visuals, while others are more interested in emphasizing the video-storytelling - it's different types of freedom and constraint. both aspects are very important but cannot realistically be reunited by every single performer yet (because it would need so much preparation). one way to do this would be to have a constant distinction on the screen between who is working "formal" and who is working "narrative". yesterday when everybody displayed an empty chair - the impression was striking! common action works, and they never fail to create an

extremely deep impression. but the formal elements should always be thought of as going with the tale in a way but not interpreting it literally. all this shall be scripted of course.

- the n3krosoft team can edit the script according to all the input on the mailing list and related discussions, but if somebody or a group wants to take the responsibility to put this script together, it would be a great relief for us (because we are also in the rush of preparing the exhibit: building fine zoetropes, editing dvd's, printing very large video stills and more...). Please announce it asap if you want to do this.

-

lineup for thursday the 14th:

sure: cym, laure, paula, nathalie, christiaan maybe: geneva, amirali:teheran, ideakritik no news: johan (berlin), alejo -> so we aren't ready yet participation-wise (there won't be any live performance in the brussel gallery space itself.)

-

looking forward, boris

pd patch

cym net cymnet

12.06.2007

hello all,

a friend of mine wrote a patch for pd last night that should do the same thing as the max/jitter patch (upload images from the live webcam stream to the server via ftp, naming them img1 to img33 and when they reach 33 start again with img1).

if anyone of you is working with debian linux pd i can send the patch. in general he would be interested to share and test with anyone.

also, he would be interested to join the jam session tomorrow. his name is Nova Viator (or Luka Princic) and you can find more information about him at <http://bin.viator.si/?page=biography> + <http://viator.si/>

attached is a png of the pd patch he sent me

greetings,

cym

brussels performance report

bk bk

16.06.2007

hello all,

we just opened the gallery this morning in brussels for the last day of the exhibit here.

i write now a little performance report

//// 1. Mother Nature we where about ready (one hour before the performance) when mother nature invited herself it started to rain and rain and rain and all at once, water filtered through the roof of the large performance hall and poured in buckets on our command table we ran to unplug the current and move tables in the dark to protect the computers and cameras and stuff the sound was ear-crushing: torrential rain in 5 minutes, there was 5 cm of water everywhere and we where soaked... and sort of annoyed... so we rushed to transfer everything from the big hall to the smaller exhibit hall while the lady-gallerist was calling the fire department //// 2. Action quite stressfull we managed to be not too late for the beginning and the performance started in front of about 30 people (that where brave enough to come in spite of

the exceptional storm) some more walked in during the show they where welcomed with champagne and other drinks Deirdre told the tale in a baroque white dress colored by the projection rays Chloe mixed discreet sounds & music BORIS told his story sitting in front of the audience on a desk while trying to film his part of the tale. MANUEL managed the projected images and chated on the skype conference //// 3. Audience reaction some people where quite confused, but most of them liked it to put it simply and shortly. //// 4. Debriefing it was hard to be fully concentrate under these climatic conditions - but it was exciting... - as there was no actual stage anymore, Deirdre found it extremely difficult to properly perform her craft, storytelling. she also feels frustration that we didn't have enough time to prepare a more refined "mise en scene" between her and Boris. - Manuel was trying to give cues according to Deirdre's words, and obviously it was going much too quick for the remote performers (& for manuel also who had to solve some technicalities...) - it was a BIG mistake to do so. we apologize for that. a better thing would be for the performers to switch between acts every 3 minutes for instance - like that everything would be co-ordinated without questions... it is a shame really that the performers weren't able to display their work in a calm manner with sufficient time to do so. this will not happen again. - Boris is basically satisfied of the opportunity to read loud his speech (adapted for the circumstance...).

-

pictures & movies will come soon on the aether website.

and check cristiaan site: <http://zurcnaitsirhc.blogspot.com/>

-

à bientôt, Boris

Dear all,

It was a true vibe to watch you all perform!!! I'm sending you million virtual kisses from somewhere on the way to Belgrade, and I'll be watching you on the 7th :)*

I hope to keep in touch, Boba

79

final TWO for 7/7/7

cym net cymnet

06.07.2007

i will be making tree-color pasta (fusilli tricolori) with tomato sauce, with some vegetables added to the tomato sauce

in fact i am eating the pasta right now already and didn't start making the sauce yet, but i will try to do that still later tonight to have all the material ready for tomorrow

i need to first download the movies of the first part and charge the batteries before i can continue the second part of cooking. it takes quite some planning to cook a meal online

are there any other recipes? does anyone else already know what s/he will cook?

by the way, the three colored pasta i used is green, orange and white. i might stick to those colors also ⁴⁶ with the vegetables and add the red tomatoes as a contrast... ¹⁰⁴

any suggestions how to add numbers and formulas to the recipe?

happy cooking,

⁴⁷ ₈₆ CYM

AetherOne 02 - pd patch update

Luka Prini / Nova Viator nova

07.07.2007

On Sat, 7 Jul 2007 19:21:56 +0200 1.1 [*] 1904.cc wrote:

> thanks luka, > > btw, i tested the patch on osx, substituting pdp_v4l with pdp_iee1394 > it was exporting the pngs successfully, but i ran into a problem with shell - actually the object seems to be buggy on OSX (even the help-patch keeps crashing). > > that problem was reported on the PD list back in 2005 - cf. <http://lists.puredata.info/pipermail/pd-list/2005-11/032615.html> > > this seems to be a kind of solution, however i dont really understand what it means: > > "i had these kind of problem too with shell on macosx+linux. the issue was that whenever a process did exit whit a nonzero status a zombie pd process was left and shell claimed that the process was still running. the solution was to make sure that the

return status of the executed script is zero and to [deelay] the bang for a short while. as far as i remember i used a value below 100." > > it's certainly not easy to troubleshoot another system than the one you use, but maybe you have an idea what i could try?

there is a workaround.

i'm attaching a modified patch. (02b) no different names, no shell object. just one png generated in /tmp/aether9.png

but uploading is done in separate terminal window with a long commandline like this:

```
ID=0; while (true); do if ((`expr $ID '> 8`)); then ID=0; else ID=`expr $ID+'1`; fi; cat /tmp/aether9.png | ncftpput -u aether -p PASSWORD -c HOSTNAME $ID\x.png; sleep 1; done
```

it's also in the patch, but you have to type it, so rather copypaste from here.

also change PASSWORD and HOSTNAME.

in the patch change [pdp_noise] to whatever else you want. there is also a [receive] object - [r aetherone] so you can send video signals from some other opened patch with a send object like this: [s aetherone]

sleep 1 means wait one second (+ time it needs to upload). you can adjust this.

hope it helps

next performance SETUP

 161

-

have a look at the pic gallery of the place, it's quite something: http://netuser.bg/2007/en/?gal=1&page_id=500

i had a look to one of the chats alejo pointed to: <http://home.gabbly.com/> super easy to embed... for bulgaria it would be no problem. (the simplest way is to type gabbly.com/ in front of the url of the page you visit, and all others visitors doing the same will be reunited in a chatroom embedded on the visited url...) issues are: it eats quite some place on a web page. the design is... what it is - but more horrifying is the ad embed in the top corner of the chat (i did not understand if we can replace it by what we wish). you can see this chat at <http://gabbly.com/colboard.com/index.php> - when i tried it, 8 people where chatting at supersonic speed and it worked perfectly.

Coco Islands Time Zone: UTC+6½

bulgaria - interface

1.1 [*] 1904.cc 1.1 [*] 1904.cc

19.07.2007

hi all, here is a possible setup for the Hotel Pleven performance (changes are possible of course):

91 laure(gva).JPG | CYM +luka.PNG | AUDREY
104 61
110 (rdam).JPG

⁹¹₁₃₇ CHRIS .JPG | boris.JPG | league.JPG

objects | objects | objects

the audio player is now a bit more hidden, see the new interface from: <http://1904.cc/aether/live/>

since we had some trouble (uncontrollable delays) with the .ru servers, i propose to drop them for now.

also, after some longer testing, it seems that png has a tendency to be quite heavier than jpg, specially with very colourful/contrasted material. so, since the max patch has now a contrast function, i suggest we switch back to jpg (not for the ⁴⁷ pd users though). ¹⁰³

this are now the corresponding FTP directories:

frame 1 - ftp ://1904.cc/1/ format: jpg frame ¹⁰³
2 - ftp://1904.cc/2/ format: png frame 3 - ftp://
imaginaryscience.org/3/ format: jpg

frame 4 - ftp://imaginaryscience.org/4/ format: jpg
frame 5 - ftp://10111.org/web/5/ format: jpg frame
6 - ftp://10111.org/web/6/ format: jpg

frame 7 - ftp://artslashmedia.net/web/7/ - OBJECTS
frame 8 - ftp://artslashmedia.net/web/8/ - OBJECTS
frame 9 - ftp://artslashmedia.net/web/9/ - OBJECTS

note: user is "aether" for all servers, except imaginaryscience.org where the user is aether

note2: for frame 6 (league), there is only 1 self-refreshing png file, called 1.png

note3: i didn't include myself among the performers - will have a busy day tomorrow and preparing the technical/html stuff + preparing the performance/finding the objects will be hardly possible.

if any of you needs special settings (filenames etc), tell me as soon as you can.

best, manuel

104

(no subject)

laure deselys lauredinateur

19.07.2007

hello,

leaving brussels pc-naked made it quite hard for me to organise tomorrow's performance and was also very

busy. so couldnt take part so much to the wiki and script elaboration. i am and will be for tomorrow located in france (high-savoy), i still have a few technical problems but it should be solved by tomorrow midday. cross finger.

the place where i here grab the net, is in a kind of basement and for me it actually seems easier to use a window that is ground high, then a door. i dont know, if considering this i should be placed somewhere else in the nine screen strucure.

maybe i can find a solution with a door but cant confirm it right now

for the four objects i was thinking of:

- ⁷⁹
²²¹ 1. red kimono 2. hunting gun 3. hat(s) 4. mountain boots

boris, i dont expect you to have these important things at home, but you can also use the color or hand gesture to make contact with them

or if its not considered usefull enough for bulgaria (desk type)

1. pencil sharpner 2. hair brush 3. embrella 4. goggles

and so on . theres such a mess of objects in this place i must make a tactico-narrativ choice

i will send the pictures for the slide show tomorrow for midday

more in a few hours gotta catch up some sleep

laure.

Thoughts, and a riddle

Lucy H G art

19.07.2007

Quick thoughts!

I think this project in Bulgaria is a bit of a riddle - the script and performance - figure out as you go - search/consume/share. The first aether project with its highly developed storyline, pseudo- ~~science~~ and mythological themes still holds the most for me... It was quite fun to do, and I think it is because of the intensive scripting - even though this made it more challenging.

I like the subject/object- consumerism theme for this unnamed last piece, but I think timing is essential. Coordination of objects moved from frame to frame, etc. Perhaps we are all in our own space time bubbles

- we are still quite disconnected during these performances, and I think a live audio conference between us would help us to synchronize, as well as get to know one another.

Instead of a new theme for each new project - perhaps we could return to this study of an object, of coordination, of passing items through the frame and communicating more "physically" with one other?
¹⁰⁴
BORIS had called for us to simplify, I think... With very little setup or concept - just play catch, as it were.

personally, i like to see aether 9 as a band that is playing live concerts. (or a theatre group that is doing theatre shows, but for me it is easier to compare it to a band) a band has a set of songs that they perform live. they practise the songs until they know them and can play them on the stage. they have a set of material and can change the set/order a little for each performance, and also create moments in the performance that leave space for improvisation. but still the basic structure is very clear for each band member. and at the same time it doesn't get boring to perform the same songs/compositions (or same theatre play) again and again.

understanding the feeling of people involved in 'meat space'... anyway, i feel there is certain beauty (if i may use such a term here) in the efforts and connections that are happening here, and during the performances.

i'm also learning a lot about group performance and how things are bringing people closer together. the people who are performing, and the notions of distance and global and speed and time and place and space. i wish i had more theoretical tools to explain more precisely what i mean. but poetics can be also quite telling.

i will/can work on a ~~cd~~¹⁰⁴ patch and linux-enabled approaches to AETHER9¹⁰⁹.

Re : Re : Thoughts, and a riddle

::audrey:: ideacritik

24.07.2007

in response to 'getting to know each other' - as i also see this as a crucial element in a collaborative performance. especially since we cannot for the most part meet each other physically, small tidbits of knowledge become the extent of what we know about each other. these tiny tidbits are therefore also the only thing we have to go on in so far as expectation or imagination of how the other will act during a performance. in our excitement over 'the patches', have we perhaps overlooked that we must not only play, but play together? the person who 'assisted' me last performance was amazed at how little attention we payed to each others performances, 6 little autisms neatly assembled on a page. perhaps getting to know each other, even if only through these unsatisfactory mediums, is a start towards an AETHER9 embodied performance as opposed to several individuals operating in the same screen though otherwise seemingly detached.

i was lucky enough to meet CYM last week in austria as well as to attend the workshop in geneva where i of course met MANU /aether9, alejo and others who are more or less inactive for the moment. i am based in rotterdam. i've just finished my MA in media design. my thesis is about the interaction/affect between media and our mourning

process, and how we perceive death. as in many of my endeavors, i interviewed many people about this very IDEA and incorporated their accounts into my final project/thesis. i am explaining this only because my somewhat anthropological methodology outlines one of my main interests in this group; how do remote performers work together, communicate, make decisions, disagree, in short, form a group. the limitations of our communication media form a particular set of 'constraints' which inherently shape our performance together. perhaps my use of the word constraints is not just because it is usually derogatory. i see these constraints as borders from which to work with, in the same light as our 'low-tech one frame per second' refresh speed. i do not wish the frames to load quicker or to attain the perfect resolution. i prefer to take on this dimension and exploit it, in all its 'dramaturgical' glory. in the same way, i think we should exploit our 'thwarted' methods of communication. we often throw together a script at the last moment and more or less blindly perform all together without knowing what each other is doing. could we take this on as some sort of methodology? could this be made explicit as a performance tool? in this vein, i can imagine that we use simple 'unification' props such as text (which we have yet to integrate successfully but in which i have confidence). these props could be constant during each performance, and this aspect would be practiced, but the rest could be 'off the cuff' or improvised as usual. as cym noted, using text, written on a piece of paper as we did in the first performance, was really nice. this is an idea which i feel is a beautiful metaphor for our communication together if it is used to communicate between frames during a performance. i imagine inmates passing each other notes between jailcells, all being watched on simultaneously by the jailguard on nine tiny screens hooked up to those surveillance cameras. we use the technology but we still attempt to communicate with paper and pen... this could be a constant which we can rehearse... for example.

i hope this hasn't been too much of a digression to describe my feeling/desire to incorporate our communication process implicitly in our performances as well as to keep some things constant in order to refine our practice, focus our experiments.

However with regard to stills or camera footage .I am right now only a few blocks from Tesla's studio on Bleeker Street NYC. Some of the architectural detail photographed here might be useful. I am also not short of either Pigeons or Pearls ..if there is any script directive, I can snap and send.

The last Aether note is: we have had issues with scripts. I applied and am still in the running for a year of mentoring at the Public Theater (Joseph Papp's). They are only choosing 10 of 650 applications so I am not holding my breath, but I am in a smaller group of those seeking to develop theater for new applications.

I am still uncomfortable with the tech I have and a public facing arts practice is hard to turn around quickly, but I am inspired with the possibilities we have and just wanted to give you some glimpse of the scheduling and the insane juggling involved to run it on a dollar and a dream. JUDY

cym net cymnet

26.10.2007

i just spent the whole week in ljubljana teaching 18 students HTML / webdesign (from 10am till 21pm every day..), so maybe i am focused a bit too much on such details, but anyway.. the interface looks really nice in firefox and would be good if it looks the same in explorer...

anyway, i am right now watching, waiting for the performance to start. some of my students also said they will watch tonight, so it would be good to put some message or something online, that performance is starting 30 mins later. I am not sure if it is enough just that the number of seconds how long to wait keeps on changing. would be better to put a line on the bottom that says * performance will start 30 mins later - 22:30 CET *

okay, i will keep on watching and waiting and take some photos

nicola and AUDREY : sorry about your internet connection. i don't know how are we going to do now. i have been waiting aethernauts since more than an hour... to fix things, do a rehearsal... mmm i don't know, i start to be worried about it. don't know exactly how are we going to do. so... i have to go to get some videos from the street to use in the performance.

i need participants ready to do some  tomorrow night (night in european time) it could be 18h 314

we have to think about a plan B. maybe a quick new script and see if other AETHERnautes want to participate. I know the hour it is not easy for you all. 1am in saturday morning 10 november... for me it will be 9 november 19h.

so, tomorrow i wish all participants will be connected the sooner you can... i will try to be connected since 10am so 16h european time.

ok. paula

162 --- Message initial --- De : PAULA Vélez Bravo ciruela at [nosspam] une.net.co

>did somebody put the video already in the net? i would like to see it with sound incorporated.

hi all, i am just now going through all the aether mails. as you know i am offline. in addition to that, the dv tape of the WORM performance has rather embarrassingly ended up in someone else's camera which is now in turkey and etc so i won't even get my paws

on the thing for another whole week. for this disorganisation i apologise as i find the immediacy of watching the performance from the 'outside' very important for critique. once i get the tape i'll be on the case asap.

a| IDEA

139
313

ps some feedback i received : -it would have been interesting if the actions performed/mimicked by the actors have a connection to the medium, its limitations, politics, etc. rather than just stretching for example... -the storyline was not very clear -it was not clear whether the brussels/geneva performances were live or recorded (which made the tension very interesting - or the intrigue). -the cues which i gave to nicola (by whispering into a microphone) were for some very nice, bringing my role in the performance more clear and also adding to the intrigue of not knowing if the cues go to nicola or also to the other actors (who is guiding who?). for others much for the same reason a bit confusing, why those cues? (i.e. front/back/left/enter/leave/apple/...) they seemed

too random .

47
168

in general the feedback was positive and the critical points were brought up because they saw potential in the project.

that's all for now. still reading the last 20 aether mails... :S

11.12.2007

> music: - i didn't produced anything, contradictory to what i announced yesterday on skype. questions: - do we want to use Beethoven's Piano Trio? If yes, do

we want to respect more or less the indications from Beckett OR do we want to freely play with this trio, with mixed loops or samples for example? (i understand that the uploaded music is only a fraction of the second movement of the trio. all the music indicated by Beckett comes from this second movement. i do not have the full piece - i uploaded, for the sake of the example, the part that goes with "Act1, l.31" - i also uploaded a couple nice loops). - There's very little (faint) music in the original indications (repertoried in the wikipedia page). - If we decide to use musical elements, is there sound apart from this music, for example do we want to stream some sounds of aint winds? Or "pastel noise"? - JUDY , how do you generally feel this music part? What are your ideas?

166

RIGHTS

Judy Nylon knickerbockerjuju

12.12.2007

I called the agency here in NYC about the rights. They have never done anything for live and on-line for anything they represent and have not had any request for this TV play while she has worked there. The agent I spoke with said she would like a write up of what we are doing emailed to her kate {a+} gbagency.com so that she might pass it along to Edward Beckett (owns the estate) who lives in England....to request permission and establish a fee for performance rights.

I too suggest we wait. There is not time before Saturday. JUDY

167

Beckett estate & performance rights alarm

Judy Nylon knickerbockerjuju

13.12.2007

At some point we must consider the ways around this because we will not receive this man's blessing at any price. However, if everything remains web-based in its production and presentation, he will

have nowhere to drop his lawsuits & 'cease and desist' orders. We will have to change the name of the play/never call it an adaptation and perhaps morph it into something else.....in my opinion.....possibly retaining Beckett himself as the character (f)

¹⁶⁶
₁₈₃ JUDY -

168

today's rehearsal & re-write of announcement

Judy Nylon knickerbockerjuju

14.12.2007

We're presenting a live multi-based web link up on Saturday December 15th. Loosely adapted from a theater piece written in 1975, taped in '76 and televised on BBC2 in 1977. We are mixing it with a bit of dub on classic piano and samples. It is a parallel universe played out in the same slice of time as the first wave of British punk. The language will be English. The development of live storytelling without a single fixed location is on going.

My fellow aethernauts and I would be delighted if you
¹⁶⁰
₂₄₅ would join us on-line at our first chance to bring this piece from TV to a wider audience. It doesn't matter what you're wearing and you won't have to worry about how you're getting home.

Members of Aether9 will be performing from different locations: Medellin, Yorba Linda, NYC, Brussels, Geneva, and Paris. The audience, those in the same room, will be joined at 'Videomedja 2007' at the Museum of Vojvodina, Novi Sad, Serbia, by two Aether9 artists from Austria and Slovinia who will host the Q & A which follows the performance.

There are no complicated programs or hardware involved. It is easier than getting out of the house. I hope you will look through our site at www.1904.cc where the collaborative process involved is quite transparent, our project laid out, and participants named. Here we will make the links "to set up your computer" so easy that you will practically fall through them to the new venue.

You will need to go through one link to find out what the time will be where you are, when it is Saturday at 11:15 PM in Serbia. The second link opens the audience viewing window and a third link leads to instructions to stream sound.

new script for ghost trio.....looks more clear. JN

Judy Nylon knickerbockerjuu

17.12.2007

Re: feedback: Beyond the compliments and stirring of the imagination the useful thoughts from friends were as follows: 1) an actor said that it still lacks emotive room in the small screens and we might insert extreme close-up shots to allow us to receive the interior part of the acting. OR...soon maybe we will be able to feature that one square larger when something like that is going on in the script. 2) a filmmaker in Berlin loved the piece and was familiar with Beckett and seemed to know that it was impossible to get the rights to do any adaptations of Beckett's plays. Her only critical comment (among lots of praise) was that the credits were impossible to follow and she wasn't wild about the handwritten "live from wher-ever" cards. I thought seeing everyone on camera for a second was reminiscent of the informal credits on a Doris Dorrie film. I liked it. 3) I had one person who is close to 70 years say that she couldn't get to it and that the interface still wasn't easy enough. I mention her because she is someone who has a foundation that gives grants and we do want to get everybody to be able to see what we do. 4) tomorrow at their Xmas party, I will hear if anyone at HWKs (www.harvestworks.org) saw this and will start them thinking about sponsoring us to have a gig at the New Museum which just opened a state of the art building on the Bowery a couple of weeks ago. I have been to Location1 (the art space I mentioned before) and feel that they have very little to offer us.

Onward....Thanks one and all...good show, it was a pleasure. JUDY

new max/msp patch

1.1.1904 1.1 [*] 1904.cc

07.03.2008

hi group,

a short message to inform you that a new performance patch is available: http://www.1904.cc/~aether/kode/max_image_upload/

i finally added some functions i was planning since a long time, most importantly an "archiving" function:

as soon as you start uploading images, the patch will automatically store an image, ca. once per minute, on a specific server location (for now it's <http://www.cave12.org/~aether/archive/>)

this will allow us to have an image data-bank of our performances, which will be ready for many interesting uses.

313

new script proposal

bk bk

15.03.2008

Hi all, I throw a script IDEA here. Still needs lots of input fortunately. I believe now that it would be better to do twice the same script for the 2 april performances.

—

It is a first draft sort of inspired by the LRRH tale, an essay from Lev Manovich, sites like [livejasmin.com](http://www.livejasmin.com) and elements of our previous discussions. I also had a meeting with Chloé in a brussels bar yesterday night where we discussed this. This requires 5 live performers. I guess that it would last about 40 minutes.

LAYERS > remember the first script, i think we all liked the 3 layers: Gods / Stratosphere / underworld. I think we mostly liked it and in this proposal, there are also layers. But not so rigid: at times the fixed clear structure is broken when the performers decide to upload their images to another frame. There would be set moments for this principle, it would be chaotic (like an unpredictable frame battle - easy to do for the max-patch users, i don't know for performers who use another upload system) (check Lev

Manovich essay "Interaction as an Aesthetic Event" (2007), found the other day on manovich.net, a short must read that i attach it to this mail. Key quote: "Command-line interfaces "deliver the goods", that is, they focus on pure functionality and utility. GUI (Graphic User Interface) adds "service" to interfaces (like mac OS9). And at next stage, interfaces become "experiences" (like mac OSX)" (it helped me to imagine the 3 layers as: "goods / services / experiences" but i don't think we should remember this for a performance script really).

TOP LAYER (frames 1,2,3) - experiences the Little Red Riding Hood > must attract all 5 senses. >
³¹³ Shows 1 girl doing the webcam thing (check www.livejasmin.com to get the idea...) - her body is spread out on 3 frames, in the illogical horizontally way (assuming the girl is sitting and not laying on a mattress for example, but she could switch positions of course): frame 1: head and shoulders frame 2: chest to tights frame 3: legs (This requires 3 cameras and 3 computers!) > Differently colored frames (Goddard's "Contempt" / "Le mépris" style lol) > The girl is "typographed": lighten by a video-beamer (projector) if available: light, images and texts (screen surface would be the skin, the clothes and the wall in the background). Magical transparency etc. > The girl ²⁹⁴ ³¹⁴ would wear red cape at times. > Live stream would be the sound environnement (spoken interactions between girls, with the technical assistant(s) and sounds from their surroundings). > A different girl could appear at times (i mean that they could switch, on location of the shooting: people on [livejasmin.com](http://www.livejasmin.com) often operate from studios where different people work) > nb: I talked with Chloé who is enthusiastic for doing this part! And in bruxelles it would be totally feasible without big organisation fuzz to have 3 cameras and 3 computers for the 3 part upload. So we can assume that brussels could do this sort of complicate part :-)

MIDDLE LAYER (frames 4,5,6) - services > The Hunter, The Wolf, and other persons/things (grandmother? Dolls? Objects? central frame 5 could be a webcam highway all the time?) / could be the people through wich the tale is carried and transmitted / could be the people looking at the kind of peepshow / the forest / the house > The Wolf: a person could be disguised in wolf, wild and chaotic. Undecipherable. Basic instincts. > The Hunter: could be disguised with mustache, hat with feather, rifle. Could spend a lot of time cleaning his gun.

LOWER LAYER (frames 7,8,9) - goods The transmission operator (frame 8) + 2 text frames (frames 7 + 9) > The Operator frame is played at the Mapping festival. He is in front of an old-fashionned greyish computer screen. He is the person managing the live Skype chat (that should be projected at Mapping).

He has a desk with a lot of stuff around, like a police inspector (i am thinking of the police office at the end of "The Usual Suspects: crowded with pictures, notes, etc - here all these documents would relate to the LRRH case of course). > black and white image only. > The Operator becomes mad when the frames change of place, when it is chaotic. Hence he would appear as a puppet-master whose puppets aren't obedient. Also as the manager of the webcam girl. I imagine he would have a eastern-mafia feel. > He gives orders at time to the girl of top layer (with text).

NARRATIVE So far i've described mostly structural elements. But i feel we need actions. Like sketches. Series of little interactions (like in the last performance when there's the "murder with the typing-machine" between 2 frames). What will be doing :-) ? This needs a lot of development. Here are a couple ideas:

> When the Wolf catches the LRRH (by going up a ladder and exiting his frame by the top? bof...) , a curtain could come down on the LRRH (like when they do a private show in web-peepshows - well of course the morale of the the LRRH story can be read as: the LRRH shall have a lover (the wolf) before marriage (with the hunter)...

> END: for the grand finale, i imagine with pleasure a big showdown (after a tense preparation time, like in westerns), with everybody shooting against everybody, and constantly changing of frames, so it would be a shooting chaotic ballet (before everybody going back to its original frame for the salutes - where the assistants also come in the image to salute).

> There should be a moment of eating altogether.

> Text: in 1 text frame, the text could be a chat session between the LRRH, the hunter and the Wolf. They could be rambling over their great memories of they recall from their story, and the operator could be there as well (live on the skype-chat and somebody remote would take care to upload the logs into the text frame or we could write this chat session in advance and somebody would upload it as well.) (n3krosoft did a performance with images of a chatter and the chat: <http://www.n3krosoft.com/projects/art/lol/index.html#> In the other text frame, something totally different could be going on.

> I guess that to emphasize the actual LRRH tale, we could upload images from books / illustrations / drawings / dolls / films / comics etc. on the theme - or not on the theme actually :-)

> SOUND: i imagine BliscappenVonMaria could do "musique descriptive", i mean develop expressionistic themes around the themes of the LRRH.

////////

I believe this structure is an invitation to a lot of playfullness and inventions. For instance the roles between the LRRH and the Wolf(es) can be inverted at some point. The LRRH could turn into a big eater, in a very disgusting way (dirty or jung food only, and alcohol) - well just a random thought.

Please don't hesitate to tell clearly your critics. If negative, please propose other concrete directions. Or if you wish to bring it to an all other level or direction, let's share ideas!

////////

PARTICIPANTS & DATES:

Confirmed for Festival de la Imagen (but we still need
301 a date): > BORIS (i'm available at almost any time
285 320 this week) > PAULA

Confirmed for Mapping (19th April, we don't know at what time yet): > Boris + Manu team > Chris > Chloé > Bliscappen music band

//////////

See you soon, Boris

new script proposal

Judy Nylon knickerbockerjuju

17.03.2008

This is exciting.....I must still call around for a camera; I still have nothing but my Mac built-in...but I have built a doll house (thinking about Duchamp's valise) in which, with surreal sized objets relating to the Red Riding Hood story, I can build the emotive current of the story with signifiers. I am attaching jpgs. The dollhouse has six rooms and I can access the objets (barely) sticking my hands (with long stick

313 334 on red fingernails) through the windows on the front. I hope you all like this; I think the smaller (rooms) boxes within on of the larger Aether boxes will give an odd scale/depth sensation that will relate to the body spread across three frames. The tits in the picture are tension toys for executives (weird to touch/squeeze).

The ~~test~~ of the new Aether page looks good. I think doing the same performance twice is a good move. i will look at the references below. and also check about the web camsAnd if we think this dollhouse IDEA will work to show the elements of the myth in an emotional/ mental landscape~, I will continue to collect ephemera related to the story. I have watched an artist Laurie Simmons use cutouts from magazines propped up like paperdolls & moved in these scenerios....it is very dream-like.

139
321

313
623
270
623

And yes, I am glad to have anything to help my half hour lecture on Aether. The doll house is out in my own dollhouse sized apartment where I can see it and think...so feed back would be good. Also, are we sticking to having a single source for sound or not? Great script start..... JUDY

Flip"book"

1.1.1904 1.1 [*] 1904.co

12.04.2008

to repeat it for those who didn't participate in that particular chat session, the idea is that at some moment (beginning/end) a shot shows the location / set-up of each performer, with the location name in big letters written/taped on some wall in the background (all locations should use the same font for this - we could agree on arial, or on Deja-Vu Sans, which is a major open-source font)

best, manuel

Manuel Schmalstieg, Paula Vélez THE
LITTLE RED RIDING HOOD TALE
FRAGMENTED FOR A TWENTY

FIRST CENTURY MIND, ONE THAT DETECTS A STORYLINE FROM MULTI-SOURCED INFORMATION STREAMS, PART CUBIST, PART 3D CHESS, BUT COHERENTLY SET IN HUMAN, ANCIENT, PRIMORDIAL MIND. WOLF, AN ANYMAN, SEEKS A ROLE-PLAYING LITTLE RED RIDING HOOD AMONG CYBER SEX CHAT GIRLS. A JOURNEY INTO THE PSYCHOLOGICAL LANDSCAPE OF THE CLASSICAL TALE, A CIPHER OF AGING, SEX, DEATH, DESIRE, VIOLENCE, SECRECY, BEAUTY AND DECAY. LIVE SOUNDTRACK BY BLISCAPPEN VAN MARIA.

547

feedback from mapping

bk bk

25.04.2008

except at the beginning when we lost all internet connexion... this generated a good deal of tension and nervousness. the remote team was without news from us, manu had to restart his computer, he did it hastily and mistakenly restarted in linux, so he had to restart again... it was hectic... then it was a pleasure to see that the remote team had carried the performance and where at the 3rd act already... so of course it was enjoyable that everything fell into place after a catastrophic start for us at mapping! the audience was around 70-80 people, which impressed me as "a lot".

548

workshop upload

chloé cramer chloecramer

26.04.2008

such, they have to listen to others. Sometimes, it is better to be silent, let somebody else do a solo. Sometimes, it is better to keep a simple image that will sustain others images.

549

workshops

::audrey:: ideacritik

19.06.2008

the workshop i proposed to the willem de kooning academie (that i forwarded to the list some time ago) was deemed "beyond the level" of students there. they study design and are not exposed to performance in any way during their studies. i was asked to think of a way to "bring it down to their level". i was thinking of ways in which the patch could be otherwise used. i haven't really come up with anything, if anyone has ideas... audrey PS i think i will send the proposal (as is) to KHM (academy of media arts in cologne) – there students are 'of the level' for it.

550

what is going on with ISEA???

1.1.1904 1.1

28.06.2008

i have no idea what's going on in singapore... i wrote to the organisers that i couldn't attend the festival in person but that one of our agents, cym, could do the presentation of the project. since then, no answer or sign of life.

regarding our global aetheric activities, i know some of us are very busy right now completing project proposals, dossiers, dvd etc for diverse big festivals and grants...

so i guess there will be some more performances upcoming soon.

best, manuel

>have we desisted the idea? >has sleeping gas slipped into the aether? >:)

overview of next performance and aether9 chat brainstorming discussion

::audrey:: ideacritik

05.08.2008

the 'girl' in is the space - (for all to see) and she is being directed by me with a microphone - 'turn to left, look scared, show your ears to the camera. this mimics what occurs on in livejasmin - and i mimic the chatters (giving the girl requests, orders, etc).

roles/characters: -the wolf (?) who could do this - paula?) -the girl (local actor in montreal - maybe a guy) -jasmin girl + text in black frame uploader (boris?) -analogue set (replacing dollhouse) - (chloe?) -giving cues and direction (chloe?) -sound (manu?) -IRC chat (this role is not certain/undecided)

the invisible work-

laure deselys lauredinateur

29.09.2008

but yesterday evening the connection was totally unregular, as it was ok in the afternoon and the day before i had yet took some precaution using two different connections and computers for sound and image connection. the worse moment was i guess when, after listening for a full song of Leo Ferre and wandering what was actually joe and samir trip on this one, i realised that the sound streaming was off and that the owner of the computer playing list was tuning...

it looks like the guy in charge of the internet connection in hamra area who was asked during the performance to allow a maximum of internet for us on the way deleted one of the connection the beirut team was working with Actually what i heard very often yesterday evening was : " This is Lebanon..." u cannot be sure of anything anytime.

If im certainly vaccinated for a while for these kind of last minute works i dont feel like i dont want to do it anymore it was really meaningfull for me to work for the last two weeks, on something specially for here, with people from here making them meet with us through the tool but what should surely be rethought is how we do it, definitely not a one new script shot , how to reduce the energy and time engagement of participants, how to include the transmission problems (as they often happen) in the sentiment of the screening, etc...

Im looking forward for the satyricon script.

619

Re : uploaded recording

::audrey:: ideacritik

correct spelling, names etc?

Mari Keski-Korsu mkk

20.05.2009

Hello,

Sorry for not being able to skype lately. Could some-
one write a short, simple summary about the actions
done simultaneously? I won't be able to see or hear
³¹⁴
₆₂₅ you due to the slow internets and this would help.

³¹³
₆₂₄ There was something about luck in group changes
and then there was something about sunset? I'll be
able to stream a little bit about the sunset, it is setting
behind the trees around the time of the my stream. I
can of course try to climb on the roof of the house (a
³¹⁴
₆₂₄ bit scared about that). What is the IDEA with
the sunset? Is it about just showing a sunset what
ever way we feel like or is there some sort of concept
like everyone is trying to show it from same angles or
something?

⁶²²
₆₂₄ MKK —

624

skype summary main poimts

christiaan cruz fe2cruz

20.05.2009

MARI & all the Aethers,

⁶²³
₆₂₆

To make it easier I think rather than luck they mean: Chance

⁶²⁴
₆₂₅

Props of luck gambling or chance effect: Dice drawing lots - sticks throwing bones games of chance play gaming imagery Aethers Aleatoric

⁶²³

synchronization will also happen by chance hopefully we can work with you via skype otherwise we can also text your phone messages SMS we can instruct you to add colors or adjust your stream simple instructions like its too busy or a cooler or warmer color likewise if skype is too much for your connection you may SMS me too 213-806-6962 fr€€ via <http://www.gizmosms.com/>

⁶²²
₆₂₅

we'll have 1 person in each group function like a moderator and try to keep all of the cells even and balanced

sunset/sunrise is just another way to accent our locations if the trees are in your way don't climb your roof its not important as not many of us won't have a sunrise or sunset just have a local paper, a clock or snow anything live from your location that the rest of us won't have

It seems like a proper rehearsal may be difficult to organize. too many timezones. However since this is a festival about improvisation and our main theme could be Moving Images of Chance then rehearsals may actually be the wrong thing to do.

I suggest all streamers just gather as many objects that they can. Objects that might support or even oppose the IDEA of Chance. Lots of Colors, pictures, books. Be prepared to write or Draw. Have prisms, Kaliedescopes or lenses to put over your camera. Try puppets in lights or just as shadows. Use mirrors to open up your space. Be aware of the other features available in the patch: cam-links & effects have your camera near a nice window to grab imagery outside or even stream outside in a nice location as long as the light isn't an issue

⁶²³

₆₂₆

Everyone has at least 2 hours. So we should all bring lots of things to play with in front of the camera and be ready to change those things if your moderator

feels your cell needs to be adjusted. Anywone with luck enough to have connections for proper viewing and listening of all the streams should try to communicate to everyone how all 9 cells are working and if any adjustments need to be made.

625

personnal summary

chloé cramer chloecramer

20.05.2009

*Those are my notes about the content of saturday's jam *: playing cards about luck : being lucky (can lead to any personal interpretation) clocks (time zone, time on location)

following the music : improvising on the music.

abstract lines ...

⁶²² * JUDY wrote :* ** Nature Weightless Wet Anxious Travel Hot Languid Food Soft Money Couples/Pairs Dance Industrial Ancient Magic Cool Depth Focal Shift NECESSITY TO PREPARE DIFFERENT KIND OF PROPS, ACCORDING TO THE SUBJECT. I would like to add that the mutual watching of other frames should not be forgotten, so that we really play together (if there is no master of ceremony). Maybe some frames could also be passive or still, or showing a slow minimalistic action, in order to llow other frames to catch the viewers attention. Let's consider each other as an orchestra and trully imagine what it sounds like when all musicians are playing solo in the same time... by the way, is there a leader of the performance or not ?! See you soon chloé —

aqui la hora del jam en su zona horaria: http://www.worldtimeserver.com/convert_time_in_CO.aspx?y=2009&mo=5&d=23&h=14&mn=0 <http://www.srrb.noaa.gov/highlights/sunrise/sunrise.html>

SET UP AND EQUIPEMENTS IN MEDELLIN for streaming and projection.

⁶²⁶ 1. Two screens (one for skype chat and patch the other for MAIN AETHER WINDOW) 2. Two projectors. 3. Sound transmission (i would like to know MANU, if that sound patch i'm using could have a doble transmission to another channel where quality could be maximum as Chris proposed?)

<http://giss.tv:8000/aether.mp3>

4. Video channels transmission: <http://1904.cc/> <http://www.livestream.com/transsesiones> <http://www.ustream.tv/channel/transsesiones>

RECORDING. Who will record the hole performance? We should maybe assign different people for different moments.. it will be long!

Who will record sound? who will record video?

I will try to do it here, but ... cool if someone else do it. one at cd quality and the other really low

IDEAS for JAM we talked in last chats

At 2:00 pm (COL time) we will try to start at time with this jam

CYM gives the signal, in a moment of *highter intensity* will start. Just need to be sure everyone is clear and knows they must write "greetings to split" when Cym gives that command around 20minutes into our performance

and then 'greetings to split', in different languages. (Like, projection in Croatia. Videovortex Festival. Cym, hello from Vorva Linda, California, Here is the sun in Australia, C'est le printemps à Brussels,...

⁶²⁶ 1.Playing cards, dice, coins, casino... about luck : being lucky -> astrology, karma clocks. could be a nice "leitmotiv", a clock , like an old alarm. to use it in BREAKS.

We say the command: CLOCKS and everyone put clocks in their frames.

2. Drawings, abstract lines, B&W

3. Ambience, landscapes, and using remote webcams.

4. Simulating people making, "Foley sound". Crunching, steps, claps, hammers, using in the image objects that makes think about sound!

5. Simulating playing instruments, following music.

6.Adapting to less frames.

7.Words to play with:

Luck Nature Weightless Wet Anxious Travel Hot
Languid Food Soft Money Couples/Pairs Dance Industrial Ancient Magic Cool Depth Focal Shift

8. spaceships, tesla, transmision, theremyn... representation of magnetic fields. 626 626

9. Toys, objects, playhouse

10. try to play simon says.

11. use red , green, bleu patch colors, and contrast B&W images... some times of course colored and what ever you want of course.... 334 624

THINK about a moment of a little perfomance for 30 minutes, to make musicians do the soundtrack live....
(AETHER9 making images and musicians following) 626 642

the interface with 9 frames dissolve interface sometimes some of the frames black abstract lines

the teams themselves can decide how to lay things out hell they can move around in just one cell if they want too

IDEAS IN THE AIR of possible STRUCTUREs FOR THE JAM For the JAM I have been talking to musicians to see if they have an structure to follow. Because i think it is very nice to have knoledge of that to prepare something for aether9.

1. One of the musicians will base his part of the JAM direction working with SILENCE in music. 2. Another one will work with a synth and use, from the computer, algoritms like dinamic systems . That will not be repetitive sound secuences. Some could take a long time, others not. random typical aether atmospheres 625 626

1. Writing in skype session , needs of noises, voices, music, strings, punctual "bruitage". 2. Using colors as we have been doing, in frames we want to have particulary "musicalised".Like in SIMON SAYS toy. <http://www.youtube.com/watch?v=2jmVU2eykul>

aether proceedings volume 1 in print

1.1.1.1

30.05.2009

hi list

so finally i created the first volume of the "aether9 proceedings" print series, where the idea is to collect all the chat sessions occurring before and during performances.

the first issue contains the chat logs of May 2nd and 3rd 2007, during our first performance at Mapping festival 2007.

the PDF file is available here: [http://1904.cc/~aether/
material/aether_proceedings/](http://1904.cc/~aether/material/aether_proceedings/)

i'm still going to revise this edition and add an Editorial Foreword / Introduction and Conclusion / performers list ... tell me if you have suggestions of what else could/should be included there.

more to follow!

ASEUM epilogue

christiaan cruz fe2cruz

27.07.2009

Don't fret Chloé,

MANUEL experienced the brunt of the term "Filipino Time" Its an island mentality where things always seem to start go or arrive later than proposed or expected. I had figured this would happen so I did not want to burden everyone with rehearsals and other meetings.

I've been on chat with Tengal since the festival and everything seems to have worked out for the best. It really was the biggest international symposium in

that lower region of Asia every assembled and Aether was a big part of it. All the weird technical communications issues and lack of proper fu>>g aside it really was a Success for the region. I have been involved in earlier symposiums where they were not much more than a website and mailing list. This one had real events and exchanges.

They had lots of fun listening to Manuel do his presentation. Even though we had communications issues and we started slow the large audience still did enjoy listening to Manuel count backwards. All those Filipino artists and students hardly ever hear European accents. Its always Hollywood/TV american english.

So maybe we could all go to the Philippines in the flesh next year with any new Grant &no>y ? I go there regularly so I wouldn't need a ticket. I'm sure that fr€€ housing would be available then too.

Also sincere apologies to Vinny who was streaming to dead frames 7-9. We will be sure to Specify that those cells are not working when we use the SEXTET. maybe we could create a warning or flag in the 626 661 Pat> .

Thanks to everyone that participated via streaming and or just piping in on the list.

now on to -> Berlin & then cimatics?

berlin PREPARATION

chloé cramer chloecramer

03.09.2009

- HOW? Determine the way we are going to discuss:
> are we going to have a moderator? (A person who takes care that anyone has the opportunity to express and also refrains us to spend more time than necessary on each subject) > are we going to work in small groups or altogether? > How much time do we give for general matters and separate topics / how much time for the performance developpment itself. > regarding the performance, knowing how long it takes to develop a performance, it might be good to define it before the actual meeting and start working on it before, in order to spend more "practical rehearsing time" than brain-storming/developpment time. >

should we make a schedule with morning, afternoon and night sessions ?

- PREPARATION OF BERLIN In order to have clear and efficient discussion, we propose to reflect before the Meeting. Here are a couple of propositions FOR EVERY PERSON WHO WILL ATTEND THE BERLIN MEETING (physically or remotly): > reflect on the above subjects. > if you have a performance IDEA , summarize it (setting, story, aesthetic, or any other feature) > prepare a small selection of screenshots (maximum 5) of your favorite AETHER9 moments (that you find inspiring, beautiful, interesting or whatever) and explain why in a few words (to be presented and discussed at the beggining of the Meeting)

!!! THE IDEA IS NOT TO HAVE BIG MAILING-LIST CONVERSATION NOW !!! We have the chance to have a physical meeting to communicate more directly. The idea is to prepare this meeting according to the subjects we would like to discuss, and anyone who has strong wish to discuss any aspect of the aether9 should express it before, so that we are ready to interact.

OK ? See you soon, Chloé (& BORIS) —

624
664

661
664

otherwise i have no experience with such things... but always willing to learn of course!! so let me know if i should suss out the situation.

> wondering if any "webcam2ftp" application exists for the iphone already?

no clue. does anyone have an iphone? ... (last year all my students did... how depressing).

PAULA —

dear aethernautes,

daily reports will be sent to the list with contents of the day's discussion. after initial group discussion we will split off into smaller groups to focus on specific issues detailed below (tentative list). for those remote participants, if you feel there is a topic that interests you particularly and want to give feedback on - please tell us - we try to include remote participation :) we can do this over IRC for example.

⁶⁶⁴ currently present are: boris,judy, MANU ,frauке,
⁶⁶⁴
⁶⁶⁸ AUDREY

laure and paula will be joining us this evening.

we have arrived at ____-micro research today. we have enjoyed a superb vedgetable vindaloo cooked by kat! re-energising us for the hours to come :)

the main subjects of discussion we foresee are: -website design (manu will give a presentation on the wordpress website at 14:00 tomorrow) -technical development (specifics to be determined) -PR (publication - contents, distribution, flipbook, prints) -performance (narrative, formal stuff, content, nomadic IDEA , storyboarding/script, sets/scenography) > directions? i.e. workshops, festivals, vjing [proposals: "urban screen", pact, rote fabrik, okno, mousonturm] -financial - grants, sponsorships, agent/producer -saturday's performance (who/what) - dr. mabuse still restaged

question: who would be interested in following the discussion over IRC (irc.freenode.net # AETHER9
⁶⁶⁸
⁶⁶⁹)? what timeframe and what discussion do you think is of interest to you?

proposed schedule of the week:

tonight: preparation of slideshow for tomorrow's presentation, initial discussion about saturday's performance

tuesday: offline till 14:00 - painting and prepararing gallery space. 14:00: manu's presentation about website 19:00 : presentation

wednesday + thursday (schedule not yet determined)
⁶⁶⁴
⁶⁶⁴ [chloe and CYM arrive in berlin]

friday: 11:00~14:00 : interviews with diana mccarthy rest of the day prepare for saturday's performance

saturday >>> PERFORMANCE

sunday : offline debriefing with diana mccarthy

that's all folks!

667

Fwd: Video-Performance, Rupert Goldsworthy Gallery

1.1 1.1

26.10.2009

FYI, here is another short compiled version of our press-text, can be useful to send around:

rupert goldsworthy gallery is premiering an aethereal performance, a wildly dispersed yet intimate collision of live sounds and images.

Developed by an online networked group of international visual artists/collectives working through Oceania, Asia, the Middle East, Europe, and into the Americas, AETHER9 is a matrix for video/audio performance, the foundations being distributed authorship, cross-platform, and 'remote' performance of streaming audio and visual material to a nomadic web interface.

>From October 26th to 31st, an intensive real-life residency of members of the aether9 group is held at at ____-micro research [berlin], where the artists meet in physical space for the first time.

29.10.2009]

ideacritik idea

29.10.2009

28.10.2009 - daily report aetheric activity

Morning discussions:

668 672 - IRC vs skype discussion (what are the pros and cons) -division into work groups: *the radio show group *the saturday performance group *PR/publication group

669 674 Radio show group: AETHER9 was broadcasting on Herbstradio.de in the Berliner Runde radio show at 19:00 CET @ HKW. <http://1904.cc/aether/2009/news/live-on-backyardradio-berlin/> Link in Herbstradio: http://herbstradio.org/plan/sendung/8614.html#Magazin-Berliner_Runde-Aether9

PR group: the PR group discussed crucial 'producibles' that will be invaluable to potential up and coming young and wealthy collectors. Such as, the deluxe collector's kit (both digital and tangible) amongst numerous other novelties.

Publication: an aether9 publication is soon to come, including documentation of performances, interviews conducted this week in berlin and an essay by Diana McCarthy. discussions are still going around edition and printing issues.

668 674 Performance group: Saturday, aether agents will be directed by doctor NYLON and her assistant from the Rupert Goldsworthy Gallery in an attempt to materialise the Californian. This script is an inter-

pretation of Doctor Mabuse by Fritz Lang. Further script development to follow.

AUDREY /aether9 group

⁶⁶⁸
674

Residencies: Could be dedicated to development of specific aspects: - Software development (with some programmer giving technical support) - PureData patching - Mobile platform support (Symbian, mobile linux...)

OFFICIAL STATEMENT FOR IMMEDIATE RELEASE AETHER AGENTS in Berlin comming from Geneva, Rotterdam, New York, Brussels, Medellin, or streaming remotely from Sydney, Yorba Linda

Scheduled for October 31st - 21:00 CET

Aether9, an [experiment](#) in collaborative real-time storytelling is gathering souls in a dramatically online fashion. BERLIN hosts a physical reunion, a seance, workshop, conspiracy, residency, and eventually a performance. wtf

ALL SOULS BERLIN >>>

Tommorow night, Saturday, Halloween, as a culmination of a week long residency @ ____-micro research AETHER9 will present a live online performance before an audience in the rupert goldsworthy gallery in Berlin.

The wireless building of a mass mind, controlling aether9 agents ...amongst Berliners unaware. Aether9 presents an interpretation of Fritz Lang's

Doktor Mabuse streaming from a taxi speeding through Berlin.

Join us online at 21:00 CET -> <http://1904.cc>

111

about aether9 Aether9 is a collaborative art project exploring the field of realtime video transmission. It was initiated in May 2007 during a workshop at the Mapping Festival in Geneva, Switzerland. Developed by an international group of visual artists and collectives working in different locations (Europe, North and South America) and communicating solely through the Internet, ther9 is a framework for networked video/audio performance, and the collaborative development of dramaturgical rules particular to Internet modes of communication . The system functions as an open platform for participants of any technical level to transmit imagery in real-time and interact through a structured narrative performance questioning the issues of presence/ absence, remote/local, identity and intimacy in the context of the electronic space.

chloé cramer chloecramer

02.11.2009

myself. if you agree with this pattern (or would like to think about it with me), it could be used for future developpment or for workshops. By the way, I would be interested to lead workshops to guide performance developpment part, without taking part myself. Would be interesting! (In addition, I am now starting a project were 100 people are creating a part of a parade, me and another guy being the artisitic co-ordinator who will eventually "stage direct" and write what comes out from all these imputs...) :

_ NEEDS FOR A PERFORMANCE: * one person doing only continuity chat and looking at the interface

676
700

* one person doing music only * one voice person doing the narratives * each image-uploader should deal 2 frames maximum, not more, in order to be really aware and creative, and especially in order to be FASTER.

_PREPARATION: how to write an efficient script step by step: * brainstorm around a thema connected with smth actual, happening now. think of images, not ideas. think of interaction of frames. >> there are very efficient techniques of brainstorm. I learned some recently and think we should try them on. you can have a first collection of homogenous IDEA in not more than 3 hours. * more accurate brainstorm with maximum 4 people, ending with 4 propositions for a performance- *1-2 persons, after discussion, write final proposition * 1 person write the text (the story to be told, it can be a poem, whatever, but must be entertaining for the lenght of the performance) * others organise a general disposition of interface, coherent with the story and esthetic/ image choices. * rehearsal: absolutely necessary to do at least one with *everybody*.

676

flat joke and other thoughts from c3cil

christiaan cruz fe2cruz

04.11.2009

yes it was nice even remote i felt really close to you all especially at the rehearsals

but on to the issues to be resolved.

something has to be done about the uploading problems it plagued us in lebanon and really killed the final minutes of berlin.

did we just have too many people viewing the website for Berlin? I'm assuming this is the root of the problem.

i was able to stream only after restarting max and then deleting the dummy (0kb) images that were writing incorrectly on our servers. but this would only fix it for a minute. There would be write errors immediately after. This was happening to those trying to fix the locked hand and credits frames at the end of our performance. There must be some way to verify the capacity of our servers and anticipate the number of viewers we have for each performance.

the patch does give a red light and an 'error writing image" message. however, there must be a way to prevent this from happening.

streaming for me worked fine during rehearsals when no one was viewing the webpage. But it seems like now that we have a good audience its impossible to perform because you can't stream when too many people are viewing the interface website. It seems all of our servers crash during the performance from too much traffic. Is my assumption correct? If not there must be some other way to correct these upload issues during our performances. It can't be on my end as my isp was not having any problems.

we have some time before manuel's & vinny's shows. We should really try to correct this issue before then.

meeting contents

Vinny Bhagat contact

04.12.2009

hi Aethers ..

Sunday is ideal time for a meeting / checks / rehearsal .. [please , even if some of you are available]

Monday performance in Adelaide , we are on at 8.30pm Adelaide time and play till 9.30 pm , ie

Adelaide (Australia - South Australia) Monday, December 7, 2009 at 8:30:00 PM Brussels : Monday, December 7, 2009 at 11:00:00 AM

please calculate your local times .. checks will start earlier ..

So far the tests i have done , with the wi fi available in the venue [1-3 Mb - bandwidth] and mobile broadband/ USB modem (varies but often less than equal to 1Mb bandwidth) ... " Slow is the word .. "

I will be using 3 computers in Adelaide with individual internet connections ..

1) Projecting Aethers interface : i would suggest , please remove the audio stream .. Atleast for the interface that we use to stream in venue . At the moment , whats streaming on 1904.cc , takes long time to playback images properly .. there is a long buffering time .. For me in Sydney , its totally fine , because i am on 15Mb+ bandwidth .. For online audience we can make an interface that consists of all the content < which needs faster internet ..

2) To playback my AUDIO[Syd] in Adelaide : What are your suggestions , i can use Ustream , Live stream

⁶⁷⁴ or icecast/ Giss Tv setup using .. What you suggest ?

3) Stream AV from the performance space in Adelaide

I will write you more soon , please reply, your thoughts n suggestions . Sometime today i will send invites .. people in adelaide are excited and it has been advertised properly over there ..

i have been spending way too much time at work , so apologies for not writing much , i read all your emails , and maintain the circuit of thoughts , inside me ..

Talk to you all soon , beautiful friends .. ' *bliss * ~vinny —

Adelaide performance

1.1 1.1

07.12.2009

Hi all, for the Adelaide performance in a couple of hours, some important points:

* the frameset has been modified – i removed the two "weak servers", nr 4 and 5, that we struggled with during the berlin performance. at the moment i write this, those frames should show black, with an occasional red or blue monochrome appearing.

⁶²⁶

If you recently accessed 1904.cc, you might use this direct link to make sure your browser doesn't show you an old version: http://1904.cc/live/frameset_09_adelaide/

* this means of course that i updated the server ⁶⁷⁴
-list, included with the Max patch – the new list is ⁶⁹⁴
included with the newest patch, nr 400. ⁶⁹⁶

You find it here: http://1904.cc/~aether/kode/max_image_upload/

The password of the z7/rar archive is the "old" aether password, the one that's easier to remember.

Meet you in 10 hours:)

Best, MANUEL —

⁶⁷⁶

696

report: Adelaide performance + future

1.1 1.1

08.12.2009

Hi all,

Some short report about the Adelaide performance, to which the Aether9 team contributed:

The project was coordinated by Vinny Bhagat (aka Shivnakaun), who was streaming live electro-acoustics from his studio in Sydney (transmitting through giss.tv from a PureData patch).

The stream was (supposedly, I didn't hear it) accompanied live on-location in Adelaide (at The Wheatsheaf Hotel, 39 George St Thebarton) by Kym Gluyas on saxophone. The AETHER9 interface was projected and visible to the live audience.

The Aethernauts who generated the visuals: CHRIS ⁶⁶¹
TIAAN Cruz, DHANYA Pilo, IDEACRITIK ⁶⁹⁶, ⁶⁹⁶
⁶⁹⁸, ⁶⁹⁸, ⁶⁹⁴, ⁶⁹⁴ MANUEL Schmalstieg, Maria Fava

This was the first participation in the aether9 project for Maria Fava (aka eskoitaus), located in Nice (N3krozof members will remember her from the CeC festival last February, where she was VJing).

The visuals were fully improvised. The performers decided to restrict themselves to a black/white color palette for better graphic coherence. Also, due to the

little number of Aethernauts, only 4-5 frames of the interface were used.

We didn't encounter any technical / upload speed ⁶⁹⁴₆₉₆ issues this time. Except ideacritik who was still unable to upload to frame 5, although the server feeding ⁶⁹⁶₇₀₀ this frame has been changed. Very mysterious.

ghost trio - found this.

Paula Vélez Bravo ciruela

15.02.2010

We're revealing our adaptation of "Ghost Trio," by Beckett on Saturday December 15th. Written in 1975, taped in '76 and televised on BBC2 in 1977. It is a parallel universe played out in the same slice of time as the first wave of British punk. Beckett, I wish we'd met.

My fellow aethernauts and I would be delighted if you would join us live on-line at our first chance ⁶⁶²
₄₇ to bring this play from TV to a wider audience. It doesn't matter what you're wearing and you won't have to worry about how you're getting home.

Members of Aether9 will be performing from Medellin, Yorba Linda, NYC , Brussels, Geneva, and Paris. The audience, those in the same room, will be joined at 'Videomedja 2007' at the Museum of Vojvodina, Novi Sad, Serbia, by two Aether9 artists from Austria and Slovenia who will host the Q & A which follows the performance.

There are no complicated programs or hardware involved. It is easier than getting out of the house. I hope you will look through our site at www.1904.cc where the collaborative process involved is quite transparent, our project laid out, and participants credited. Here we will make the links "to set up your computer" so easy that you will practically fall through them.

You will need to go through one link to find out what the time will be where you are, when it is Saturday at 11:15 PM in Serbia. The second link opens the audience viewing window and a third link leads to instructions to stream sound.

We all wait inside our distractions to see what is outside time, beyond words, without location, and never in complete control JUDY NYLON

Pixelache sound loop files needed

christiaan cruz fe2cruz

18.02.2010

create/record sound files yourself or find them from other websites (with credits)

FTP your files here <http://cave12.org/~aether/archive/>
2010.03.26.Helsinki

just follow these guidelines:

Installation Sound Loop Guidelines This is an 8+ hour Public installation so please select your audio files with these things in mind:

1. Voice reading a text in narratively engaging tone. Can be an essay about aether theories, or narrative. should be possible to understand/follow. 2. Very short audio- loop of only a few seconds, that is interesting to listen to when looping for 1-2 minutes (maybe with slight shift in volume and speed). should not be too disruptive / rhythmic - it should be usable as a background for a reading voice. 3. Avoid annoying sounds or standard crowd noise that would just blend into a large room of talking people. 4. The content relates to the visual material we're streaming (landscapes of us see below) 5. Ambient synthesizer or radio wave sounds in upper frequencies.

Examples: space sounds - <http://www-pw.physics.uiowa.edu/space-audio/sounds/> aurora sounds - <http://www.auroralchorus.com/> space radio - <http://www.svengrahn.pp.se/sounds/sounds.htm>

"LANDSCAPES OF US" (working title)

This IDEA is inspired somehow by Vimeo group called "The Pictures Don't Move" <http://www.vimeo.com/groups/thepicturesdontmove> and of course JUDY's idea about the leaves. Idea would be to create landscapes or sceneries by using different streams: even though each stream is different and from different location, together they create a whole scenery (this is something Aether has done with drawing, I guess, but now it would be live footage). It's pretty simple, here's a sketch that explains a bit: http://www.artsfartsu.net/IMG_2438.JPG

But what would be the sceneries, then? Should there be one or more? Could there be themes like, e.g, earth, wind, water and fire? Urban, forest, country-side? What is nature anyways? It should just be your localized nature. Like Judy's idea of shooting out your window. Just pick some image in your area that you can safely stream the whole 8 hours. Or the aernaut could have different setups say 8 different 1 hour landscapes. I like this change idea.

As of now the 9 aether frames will be like an exquisite corps landscape image the top three sky streams the middle 3 frames horizon and the lower 3 earth ground streams A localized scene from your area is preferred

So far we have confirmed MARI Keski-Korsu ⁶⁴²₇₀₀ (possibly streaming in on location)

CHRISTIAAN Cruz MANUEL Schmal-
stieg Judy NYLON PAULA Vélez Bravo
Cym

It'd be nice to 4 or more Aethernauts streaming live landscape so ask Friends and family about availability on Friday March 26th Helsinki time Just introduce

them via the list and one of us can setup a skype chat date to help them get used to using the patch if needed.

residency agence TOPO current situation

ideacritik idea

19.02.2010

hi all,

i've been in contact with Eva Quintas president of agence TOPO where i sent a proposal for an ⁶⁹⁸₇₀₁ AETHER9 residency about a month ago. the current proposal is the following: (it is still to be confirmed whether they accept or not)

5 week residency ending with a performance at the 'geo-web installation' festival at the Cinematheque.

theme: "lost in montreal" this theme addresses the mobility of the actor (to be developed in residency) and the aspect of discovery ('getting lost') linked to cinematographic explorations of the avant-garde (⁶⁹⁹₇₀₀⁷⁰¹ thematic). (wink wink MANU :)

schedule:

⁷⁰⁰₇₀₅ week 1-3: (AUDREY @ TOPO - other agents remotely present) -PD patch development -development of mobile interface (method to control ⁷⁰⁰₇₀₃ upload, contrast, etc., actions with a WII controller) ⁷⁰⁰₇₁₂ week 4-5: (audrey and CHRIS @ TOPO - other agents remotely present) -explorations and experimentation with mobile interface -script -performance

dates (approximate) : mid-may to mid-june 2010
place: montreal

this is perhaps a bad translation and certainly an abbreviated version which does not convey the extremely fun aspect of this new prospect of running around town with a magic wand uploading images to the interface. in any case as soon as/if we have confirmation we'll get down to details.

Set up and concept test of PixelAche
25.3. at 11 am (CET)

Mari Keski-Korsu mkk

23.03.2010

Hi,

Finally got info about set up in Kerava Art Museum. They start already in the morning at 8 am (CET), but there won't be electricity for two hours, so I think ⁶⁷⁶
₄₅ 10 - 11 am (CET) would be a good time for us to start testing our work. This is Thursday 25.3.

John Hopkins is interested in joining our installation. He would like to stream Arizona sunrise at 14:30-15:00, (30min) CET Manu, from where should he download the needed files and also the server ⁷⁰¹
₇₀₅ listing?

27.03.2010

Hi,

⁷⁰⁰
⁷¹⁴ Manu, PAULA , Audrey, Vinny, Cym, JUDY ,
⁷⁰⁹
⁷¹⁴ Chris, DHANYA and John. Once more, THANK YOU very much for your hard work and amazing creation in Pixelache Camp yesterday. It was such a nice experience. I also want to apologise once more that I had difficulties on concentrating in between the virtual discussion of us and talking about the work with people in physical space. Both sides lack in this situation, that's for sure. But I hope you won't hate me, still :)

I uploaded some pics to my Flickr account, I will add them to the Aether9 group after Paula accepts me as a member of it. <http://www.flickr.com/photos/artsufartsu/sets/72157623587582799/>

Cym Net cymnet

27.03.2010

⁷¹²
⁷¹⁴ Hello MARI

Thank you for uploading the photos. The festival looks very nice! After seeing the photos I really think that it is a pity that I couldn't come... But it was a very

nice experience to stream with Audrey from the garden. It was so strange to walk around there in this very quiet garden next to a busy street, making pictures from grass, water and clouds, while trying not to loose the connection. Somehow it seemed very bizarre to me, especially to do this live. But it is really nice to get feedback and to see some photos of the installation with the audience. The setting, the projection inside the white cube, is really nice!

714

Helsinki says thank you!

all very understandable - its impossible to be totally
present in both physical/virtual :)

> I uploaded some pics to my Flickr account, I will ad
them to the Aether9 > group after Paula accepts me

i especially like: <http://www.flickr.com/photos/artsfartsu/4466814176/> (our new AETHER9 'do' ? :) ⁷²⁹

apart from the usual chaos of our performances i ap-
preciated yesterday for a few reasons. first of all it was
nice to be perfomring for so long (some hours) while
people where casually walking in and out of the space
(i imagine) because this meant MKK was giving ⁷¹⁴
us 'live' feedback on what is getting through to peo-
ple. comments like - 'yes text helps' - or - 'add a shot
of your faces in the loop' - etc. ⁷¹⁵ ⁷⁰⁵

⁷¹² CYM and i were indeed reflecting on what could possibly indicate to viewers that this is live - it is otherwise just pleasant scenery. ideas like adding the occasional mugshot, or the computer in 'the wild' are the start of a list we should elaborate upon.

⁷¹² MANU i loved your train and 'wandering' streaming! i also thought that much of the sound that was streaming yesterday was such a huge improvement on our tired sound bank. at one point the music coupled with the image was so fitting - i had a moment - one of those randomly programmed ones...

next perfo coming april 21st in amsterdam - more on that soon.

715

Helsinki says thank you!

1.1.1

28.03.2010

Hi all,

⁷¹⁴ ⁶²² big thanks to MARI for running the show at
Camp Pixelache!

It was a very interesting perfo for me as i was testing a
new streaming setup: - little AsusEEE netbook (run-
⁷¹⁵ning the patch in W/inXP) - cheapo USB webcam
(Aiptek VGA+) - mobile USB web access

The first session was a near total failure, as it was
raining heavily, and I realized that it's impossible to
operate laptop+cam while holding an umbrella! In
addition to that, the botanical garden where I was try-
⁷¹⁴ ⁷¹⁵ing to stream from turned out to be in a no- network
zone between two hills.

During the afternoon sessions, rain stopped, and I got
used to the process of quickly connecting the USB
⁷¹⁵ ⁷¹⁶ modem, entering PIN, launching Max patch, ad-
justing cam settings, all in a couple of minutes. And as Cym says, it's a very weird and fascinating feeling,
sending the live images from a quiet natural outside
location.

The connection was surprisingly stable, even in a
rolling train there were no disconnections. It looks
like switzerland has a dense coverage, appart from
mountainous zones. This opens lots of opportuni-
ties for outside streaming, and I think the direction of
"mobile documentary event coverage" is something

to explore, where the "realtime" element can make real sense.

Also, specially in the later hours of the performance, I think we worked out a good sense of composition withing our 9 frames (in terms of geometry, colors)... hopefully the sign that there *is* some ongoing progress in our familiarity with the tool / framework :)

716

Helsinki

1.1.1.1

28.03.2010

more videos: <http://1904.cc/aether/2010/community-news/trains-forest/>

i just pasted together a few clips that i had the good IDEA to record while streaming ... ⁷¹⁴
⁷¹⁷

do not forget: the patch *has the ability to record* with the little "rec" button under the preview window ... it creates small quicktime files that don't take much space on the harddrive, so you can record a lot ...

best, m.

perfo - amsterdam - feedback an dso on

ideacritik idea

22.04.2010

good afternoon,

yesterday immediately after the performance maaike
(actress), CYM and i had to take everything down ⁷¹⁵
in less than 10min. this meant we had to immediately
shut down computers, beamers, etc. ₄₅

some feedback from organisors: -beautiful, 'it really
worked for me' this kindof slow trance like ⁷⁰⁰
medium. (in short we are invited to develop something
for museumnacht in november - more on that
in another email) -maaike was a really great actress (i
agree)

other feedback: -it was really clear that it fell apart
(timing, etc). -interesting how you work with a
form (telematic performance) that was explored in
pre-days of internet and then some how dropped out.

for my part i would like to thank you all for participating
in this unpaid, unexpectedly very demanding, and
extremely chaotic performance (+ rehearsals). it was
not easy - thanks for hanging in there!!! the performance
was certainly not a great success (timing was
pretty off) but considering the chaos and the single
rehearsal we did quite all right. amsterdam was pretty
solid thanks to the script with timing. this countered
the lack of timing in the interface.

i think we are at some sort of a x-road. there have
been many tensions mounting, namely: diverging
ideas about the future of AETHER9 ⁷¹⁴, possible
directions, where to invest energy, time, etc. ₄₅

i think it is time to organise a chat meeting in
which these things can be discussed. i myself have
many issues and frustrations with this group at the
moment which need to be adressed (especially in light
of the upcoming residency). i think the mailing-list is
not the place to do this. the fact that misscommu-
nication cannot be immediately addressed in a chat

channel can lead to huge unnecessary tensions. i suggest a meeting over the weekend. late enough that columbia/california dont have to again wake up before 7am!

so suggestions? saturday or sunday evening? (lets say 21:00CET?)

lets please keep this discussion off list. after all it is 'public'.

⁷¹⁷
₇₃₁ AUDREY

730

perfo - amsterdam - feedback an dso on

1.1.1.1

22.04.2010

hi audrey,

good to read this feedback, and thanks for addressing
directly issues of future development of the project.

> i think we are at some sort of a x-road. there have
been many tensions > mounting, namely: diverging
ideas about the future of aether9, possible > direc-
tions, where to invest energy, time, etc.

agreed. interestingly, the two latest performances we
did, pixelache and now amsterdam, went into two
totally different directions: - using the interface as
canvas, working without a storyline, rather exploring
rules of visual composition. - following a precise
storyline, with characters, precise timing, narrative in-
terrelation of frames.

i notice that i find the first option is much closer
to my own interests. so for me, that's definitely
the direction i would envision to work with. i
also wrote about this in the proposal that was sent
recently to the list: [http://lists.1904.cc/mailman/
private/aether/2010-April/001027.html](http://lists.1904.cc/mailman/private/aether/2010-April/001027.html)

> so suggestions? > saturday or sunday evening? (lets
say 21:00CET?)

possible for me on sunday, but rather at 22:00 CET.

best, manuel

very small report from montreal

ideacritik idea

18.05.2010

hi all,

⁷¹⁴₄₅ CHRIS and i are working our asses off (despite the
beautiful beer drinking terasse sitting weather tak-
ing over the city). the alpha alpha patch is pretty
much done - wii remote action up next. im half-way
⁷¹⁵₄₅ through the script/scenario (will upload very
soon). local actor jordan arsenault has contributed

loads to the script/scenario and i think it has tremendous potential!

rectification: may 26th showtime: 19h30CET this is confirmed!

AUDREY

731
45

ps to answer the linux/osx question - we are working on linux exclusively at the moment because we plan (in the future) to make a boot cd (that is os independant, that everyone can use regardless of what operating system they use). so those who want to try it out for now must have a linux system and some patience to install other libraries and etc - or a puredyne type boot cd (i havent tried this either). therefore it is foreseeable that everyone else but the montreal crew ends up using the max patch for the next gig :)

...that all folks! :) ...
